Ocreotide	Ondansetron Hydrochloride	Oxytocin	Pancuronium Bromide	Pantoprazole Sodium	Penicillin G Sodium	Pethidine Hydrochloride	Phenytoin Sodium	Piperacillin/Tazobactam	Potassium Chloride	Propofol	Ranitidine Hydrochloride	Sodium Bicarbonate	Sodium Valproate	Sulfamethoxazole /Trimethoprim	Terbutaline Sulfate	Thiopental Sodium	Tranexamic Acid	Tigecycline	Vancomycin Hydrochloride	
																				Acyclovir Sodium
																				Adenosine
																				Amikacin Sulfate
																				Amphotericin B conventional
																				Amphotericin B liposomal
																				Aminophylline
																				Amiodarone
																				Ampicillin Sodium
																				Ampicillin/Sulbactam
																				Atracurium Besylate
																				Azithromycin
																				Calcium Gluconate
																				Cefazolin
																				Cefotaxime
																				Ceftazidime
																				Ceftriaxone Sodium
																				Cimetidine
																				Ciprofloxacin
																				Cisatracurium
																				Clindamycin Phosphate
																				Cloxacillin Sodium
																				Colistimethate Sodium
																				Desmopressin Acetate
																				Dexamethasone
																				Diazepam
																				Digoxin
																				Dimenhydrinate
																				Dobutamine Hydrochloride
																				Dopamine
																				Epinephrine Hydrochloride
																				Fentanyl
																				Fluconazole
																				Fosfomycin
																				Furosemide
																				Gentamicin
																				Heparin
																				Hydrocortisone Sodium Succinate
																				Imipenem/Cilastatin
																				Insulin Regular
																				Lansoprazole
																				Levofloxacin
																				Lincomycin Hydrochloride
																				Magnesium Sulfate
																				Mannitol
																				Meropenem
																				Methylprednisolone Succinate
																				Metoclopramide
																				Metronidazole
																				Midazolam Hydrochloride
																				Morphine Sulfate
																				Naloxone Hydrochloride
																				Nicardipine Hydrochloride
																				Nitroglycerin
																				Norepinephrine Bitartrate
																				Ocreotide
																				Ondansetron Hydrochloride
																				Oxytocin
																				Pancuronium Bromide
																				Pantoprazole Sodium
																				Penicillin G Sodium
																				Pethidine Hydrochloride
																				Phenytoin Sodium
																				Piperacillin/Tazobactam
																				Potassium Chloride
																				Propofol
																				Ranitidine Hydrochloride
																				Sodium Bicarbonate
																				Sodium Valproate
																				Sulfamethoxazole /Trimethoprim
																				Terbutaline Sulfate
																				Thiopental Sodium
																				Tranexamic Acid
																				Tigecycline
																				Vancomycin Hydrochloride
